About Penrith Valley Pest Control

Penrith Valley Pest Control is a locally owned family business. The owner has lived in the Penrith district since he was 5 years old. Penrith Valley Pest Control was established in 2008.

Our Mission

To become the Pest Controller of choice to the community within the Greater Penrith district, catering to the needs of our customers and the natural environment.

This will be achieved through establishing a reputation as an honest, reliable, value for money service provider priding itself on the quality of work achieved and high levels of customer service. We use only the highest quality, family and pet friendly, environmentally conscious products. The business owners have a family with young children and we only use chemicals on your house that we would happily use on our own house.

We attend regular Industry Conferences and Trade Expos which expose us to all the latest information and products available and enables us to keep up with the ever changing world of pest control.
